4 modules, totalling 16 days of education

41 Young Coaches, 82 Peer Young Coaches

> 1,200 benefiting children

K.F. Prishtina, Eurokoha

## OUR GOALS

The FCSA's main objective is to empower committed young adults in their role as proactive community leaders – on and off the pitch. Through our education programme they learn how to use football as a tool to positively influence the lives of children and how to become role models in their society.

These so-called Young Coaches from post-war, crisis or developing regions are required to already work with children. They might be teachers, NGO staff or volunteer community workers.

Training the Young Coaches and inspiring them in their work leads to a wider impact on the lives of many: the Young Coaches learn to pass on their knowledge to peers so that even more children can benefit.

## OUR PROGRAMME

On-site programmes are set for a duration of one year and consist of 3 one-week workshops. Participation is free of charge; travel and accommodation costs are covered.

The workshops are led by professional instructors of the FCSA member clubs. Football is used as the main tool to teach leadership and coaching skills as well as how to convey life and soft skills. The programme's content is always adapted to locally relevant social topics. All Young Coaches receive the especially developed curriculum translated into the respective language. Cooperation with a reliable local partner is key to the success of our programmes. They guarantee the Young Coaches' constant support.

To adapt to the new situation in light of the COVID-19 pandemic, the FCSA has developed an online education to support Young Coaches and their peers around the world. The 10-week programme consists of self-learning modules and live webinars. The education is delivered in selected countries with support of local partners.

## OUR IMPACT

Our Young Coaches receive expert knowledge on how to use attractive football activities to improve living conditions for the most vulnerable in their communities – the children.

A fundamental element is to create opportunities for under-privileged children to participate in play and sport. Sport activities foster their self-esteem and offer them vital new perspectives. Through play, trust can be built and problems can be tackled.

As of today, 810 Young Coaches have been educated in 18 countries. They have shared their knowledge with more than 3,487 peers. Thanks to their daily social activities and their ongoing dedication, more than 113,600 children are benefiting worldwide.

## OUR VISION

The Alliance uses the unifying power and values of football to contribute to the education of disadvantaged young people and to sustainably foster their development.

**A partnership to educate and empower through football.**

## OUR MISSION

Together we educate young people as qualified football coaches and role models for disadvantaged children and by doing this inspire them to become socially engaged in their community.

**Together we inspire.**

The Scort Foundation is a non-profit, politically and religiously independent operating foundation based in Basel, Switzerland. The Scort Foundation initiated the Football Club Social Alliance in 2007 and manages the development and administration of the partnership programme. All conceptual and organisational tasks, including the project management, fundraising and linking up with local partners, are accomplished by the Scort Foundation. All project costs are covered by the FCSA, Scort as well as international and local partners.
